

Mt Kenya Blend

About this Coffee

Our Kenya Blend green coffee is a blend of coffees from co-ops, estates and smallholders from Kirinyaga, Nyeri, and Kiambu County.

The coffee was grown and picked by smallholders and delivered to wet mills where it was disc pulped, fully fermented and washed, sundried on elevated drying tables. Consolidated parchment volumes were then delivered to dry mills where the parchment was hulled, graded according to size and density, and warehoused and warranted for sale.

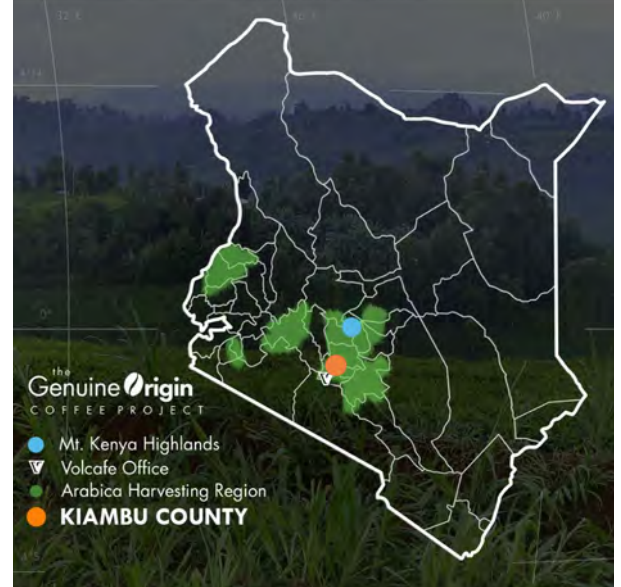

Quality Control Evaluation

Flavor: Cocoa, Fruity, Sweet

Body: Medium

Acidity: Medium

Moisture: 11.50%

Producer: Various smallholders, Coops and Estates

Varietals: SL 28, SL 34, Ruiru 11, Batian

Process: Washed

Region: Mt. Kenya

Altitude: 1300- 1950 masl

Harvest Period: October - December '16
