GUJI SHAKISO SEWANA NATURAL

CUP PROFILE

Experience a bright, almost effervescent strawberry acidity balanced with honey and stone fruit sweetness. Notes of melon and berry round out this sweet coffee.

ABOUT THIS COFFEE

Our Guji Grade 1 Shakiso Sewana Natural comes from Kayon Mountain Coffee Farm in the Shakiso district of the Guji Zone in the Oromia region, about 530 km from Addis Ababa. The farm is owned by families that were born and raised in the area and have 30 years of coffee experience. In the last several years Kayon Mountain Coffee Farm has focused on increasing the quality. The farm has been gaining recognition and winning awards for their outstanding coffees.

The Kayon Mountain Coffee Farm enjoys ideal growing conditions. The farm lives in the shadows of evergreens that provide a multi-canopy structure. The Shakiso regions' volcanic soil is bursting with nutrients, creating a deep red and brown top-layer of soil. And, the regions' high altitude, bi-modal rainfall pattern and dry weather allow coffee cherries to develop slowly. In addition to coffee Kanyon Mountain grows cabbages and many varieties of plants that help to maintain soil fertility.

Region:
Shakiso district, Guji Zone, Oromia

Producer:
Kayon Mountain Farm

Altitude:
1,960 meters ASL

Varieties:
Heirloom

Processing:
"Natural" dried in the fruit on raised beds
