

Ethiopia Guji Adola Washing Station

Natural Green Coffee Beans | Genuine Origin

Adola Washing Station, situated in the Guji region, is a communal wet mill located close to the town Anferara. Nearly 1500 smallholder farmers from the surrounding area contribute coffee cherries to the station each year. Delivery of cherries is made directly to the washing station, or to an Adola collection center in the more remote areas. Adola Washing Station specializes in washed and natural coffee processing methods.
