

Aged Gayo Aceh G1

Sumatra Green Coffee Beans | Genuine Origin

Aged Sumatra is a real thing! It is not some Marketing effort to sell old inventory. Like certain wines and certain whiskeys are considered by connoisseurs to improve with careful aging, a few coffee regions (most notably, Sumatra) can benefit from the careful attentions of an expert to bring out the muted tones and wonderful nuances with this unique method. The idea is to bring out the same characteristics that were observed when sailing ships brought coffee from this island region to Europe, having to sail many months across the Indian Ocean, down the coast of Africa, around the Cape of Good Hope, and all the way up the continent

Origin

Sumatra

Region

Aceh

Producer

Various Smallholders
