Catuai

ALTITUDE (MASL)

1100

Coffee Background

Since the 1900s, the Barbosa family have been the stewards of Fazenda Cachoeira Paraíso in Carmo do Paranaíba. The estate is approaching a new era with the fifth generation of Barbosa producers. Danilo Barbosa works with his sons, Vitor Marcelo, and Sérgio Ricardo, to continue supplying the best coffee they can. Together, the family works with their extended team to cultivate 490 hectares of coffee farmland and over 186 hectares of nature reservation.

The Barbosa family has always concentrated its efforts on improving production, management, agriculture technologies, and nature conservation. From the curation of viable varieties to the moment of harvest and then to processing and transport, they closely maintain high standards strengthened by generations of expertise in quality control and innovation.

Cerrado Mineiro, or Cerrado de Minas, is the only region with Designation of Origin status. At an altitude of 800 to 1,300masl, the region enjoys temperatures ranging from 65 to 73°F. Medium- to large-size farms are located throughout 55 municipalities, some with a few hundred acres all the way to large estates.
