Coffee Background

Salmo Plus Natural coffee from Brazil is a Genuine Origin crowd favorite and easily our most versatile coffee. Salmo offers coffee roasters a classic Brazil cup profile, with notes of milk chocolate, golden raisin, and roasted peanuts that will leave drinkers with the impression of a Reese's peanut butter cup in the mug. Coupled with a gentle but balanced acidity and a light body, Salmo meets all the expectations of a delicious Brazilian coffee.

Salmo is a blend of Cerrado region coffees, purchased at farm gate from a select group of producers. The coffee was then processed and prepared for export by Volcafe Santos, our sister company in Brazil, at their facility in Varginha, Minas Gerais.

As the biggest coffee-producing country in the world, Brazil has had a long history of success in optimizing best practices in the industry. While Cerrado is a relatively newer region to join the ranks of Brazil's success, it's pillars of well-defined seasons, abundant sunlight, advanced farming, and entrepreneurial spirit forged a foundation for coffee to thrive.
