Coffee Background

Named after the Kinyarwanda word for elephant, Inzovu is a coffee that reflects the strength, resilience, and natural beauty of eastern Rwanda. Grown by smallholder farmers in Kirehe District, this lot comes from a region known for its rolling hills, fertile soils, and favorable growing conditions. Coffee trees thrive in the warm days and cool nights of Rwanda's countryside, producing cherries that mature slowly and develop exceptional sweetness and complexity.

This coffee was produced by Rwanda Trading Company (RTC), an organization that has played a significant role in elevating the profile of Rwandan coffee since its founding in 2009. RTC works directly with tens of thousands of smallholder farmers across the country, investing in agronomy training, coffee seedlings, quality improvement, and long-term sustainability initiatives.

Kirehe Inzovu showcases the dedication of Rwanda's coffee-growing families and the meticulous care they bring to each harvest. Screen size 15+ selections ensure a consistent bean size and roasting experience, while careful processing preserves the clarity and balance that characterize Rwanda's finest washed coffees.
