● Harvest & Post-Harvest	45.20%
● Administrative Costs	9.00%

Productivity

Green coffee bags per hectare	16.35
-------------------------------	--------------

2016

First years - collecting info

Candelaria had the most producers involved at once. The first years of collecting data and visiting farms were a challenge.

2020

5th year - improvements

The coffee culture in Huehuetenango is so rich and the good work has kept over time. Using more efficient resources and cost allocations.
